Open your file

Choose print

Choose the number of copies.

Choose which queue you want to send the job to.

You will be prompted to put in your CamelWeb username and password the first time you use each queue. Once you hit print, you can go and tap your card at the device of your choosing and release your print job.

How to set up PaperCut Mobility Print

The installer will process and then check all 4 boxes to have all of the print queues.

Enter your CamelWeb Username and password when prompted, so PaperCut will recognize your account.

Last click finish.

Then when you go to file print you can choose any of the 4 print queues that you downloaded.
